

YOUdecide

Grab a few grand!

Project 'prompt' questions

Below are some questions that might help you to put together a bid to **YOUdecide**. It may help you to think about how the problem may be affecting other young people in your community and what the answer to the problem could be. It may be that you need to ask others if they are suffering from the same problem and who you may need to help you find a solution.

- What would you want to see different in your area?

- What actually happens (in detail)
 - How often does the problem occur?
 - How many people does it involve?
 - How long has this problem been going on?

- What impact does this have?
 - On you?
 - On your family/friends?
 - On neighbours?
 - On others such as voluntary groups or organisations?

- How would you know when the problem was solved?

- Does everyone have this problem?

- Who is interested in working with us to find solutions?
